Opis produktu

Urfaust - "Ritual Music For The True Clochard" digi CD

Digipack made of black solid-colored, rough cartonstock with silver print and comes with a booklet.

The rituals on "Ritual Music For The True Clochard" were previously released under different formats in close cooperation with various bands and labels. Thanks to Herr Deportator for his insane efforts to mix and master them very thoroughly the Urfaust way and compile them to a homogene full length.
