Opis produktu

Svåra år is not just the title of Utmarken’s third album – it’s a declaration, a battle cry, and the name of their most streamed song to date. If the third album is where a band proves its worth, Utmarken did more than survive the trial – they thrived.

After a buildup through singles and extensive touring across Sweden and Norway – including a national tour supporting Raubtier – Svåra år emerged as the band's most focused, confident, and successful release. The album distills everything Utmarken stands for: powerful melodies, folk-infused instrumentation, and lyrics rooted in resistance, nature, and the enduring northern spirit.

Gone are the uncertainties and experiments of earlier records. In their place: clarity, purpose, and punch. The songs are more direct, the production sharper, and the band's unique voice – somewhere between hard rock, Swedish folk, and mythic reflection – rings truer than ever. From the pounding defiance of “Hedninga blod” to the mythological invocations of “Hell Odin” and the anthemic energy of “Triumfera,” Svåra år is a record of survival, sovereignty, and self-realization.

If the northern wilds could sing, they might sound like this!
