Opis produktu

180g LP edition with golden hotfoil stamping.

After a period of smoldering dormancy Vanum reappears, blazing and alive, with their third full length album, Legend. Continuing the triumphant march of previous works, but raising the stakes even higher, Legend finds Vanum both expanding and refining their approach, and in turn delivering their most fully realized recording to date.

The core of the band's sound remains unchanged: unyielding and grandiose Black Metal that traces a hellish through line from the power of mid-era Bathory, through the riff-craft of the Hellenic masters, to the bitter fury of the Slavic greats. But amidst the pantheon of familiar influences new touchstones become ever more apparent. With Legend, the continuum is charted further back and to new lands. Within the throes of the Black Metal maelstrom, echoes of classic heavy metal are increasingly recognizable, further bolstering Vanum‘s towering melodic sensibility and epic songwriting. Coupled with a deeper and expanded exploration and use of ambience and synthesizer, the album is imbued with a richness and sense of majesty that underpins each of its five towering compositions.

While musically dynamic as ever, the overriding theme of the album is one of victory. Victory amidst bloodshed; triumph amidst loss. This is Black Metal as spiritual war, the aural embodiment of ancient combat and heroic struggle. This is Legend.
