Opis produktu

This project should be known for most underground fanatics out there. Finlands's murky Black Metal Band **Venus Star** has released no less than four full length albums and several EP's in the past, but this will be the first release out through **Terratur Possessions**.
The fifth full-lenght nods to old Beherit, Ride For Revenge and even Cultes Des Ghoules, without any of these aforementioned bands sounding exactly like Venus Star.

Judge for yourself, fans of this band's older material will not be disappointed though!

Amazing artwork as always by Dennis Forkas.
