Opis produktu

30th anniversary CD edition of **Vital Remains**' **Into Cold Darkness** pwith 8-page booklet and **bonus track**.

Originally released in 1995, the album resumed the brutal metallic assault established with 1992’s debut Let us Pray and arguably delivered even more ferocity, aided by the generally higher tempos and inspired and intense riffing. With an air of satanic death metal running throughout, the album also contains cover versions of the classic black metal tracks Dethroned Emperor originally by Celtic Frost, and Countess Bathory, by UK metal legends, Venom.
