Opis produktu

As part of an onslaught of new short-length assaults, BLOOD HARVEST RECORDS is proud to present VOIDCEREMONY's Foul Origins of Humanity on digipack CD and 12″ vinyl formats.

On the back of two hotly received demos – 2014's Dystheism, which BLOOD HARVEST later released on 7″ vinyl, and 2015's Cyclical Descent of Causality – California's VOIDCEREMONY have been patiently perfecting their craft. Although both demos were suitably rough in production, the execution was flawless – and fierce. Now, with the release of Foul Origins of Humanity, VOIDCEREMONY have at last fully capitalized on their mesmerizing, mind-bending potential. Everything that made those two demos special have been taken to extremes here, and with extreme focus and finesse: blackened death metal sprawling with labyrinthine technicality and endless corridors of unexplored realms. Foul Origins of Humanity is just as much a dizzying, bilious beast, VOIDCEREMONY's songs here twisting and contorting in ever-more-obscene ways, but now captured with a clarity that's absolutely blanching to behold.

The Foul Origins of Humanity are here, and VOIDCEREMONY have thrown down the gauntlet…that is, until their forthcoming debut album for BLOOD HARVEST arrives.
