Opis produktu

SRUIN121
German black/death metal legion Voreus debut with "The Proclamation" mini album, a twenty three-minute light-devouring hellscape of complete chaos and inhumanity that establishes the band as an implacable rising force in the elite of German extreme metal. With a massive cavernous sound, a delivery of pure and unbridled ferocity and atmospheres of complete lightlessness and abandon "The Proclamation" evokes complete hell on earth, conjuring the same otherworldly and hellish realms of aural obliteration we've seen in highly elitarian and evocative blackened death metal entities like Teitanblood, Temple Nightside, Vassafor, Impetuous Ritual, Pseudogod, and Proclamation.
