Cena	61,90 zł
Dostępność	Dostępny
Czas wysyłki	3 dni
Producent	Unique Leader Records

Opis produktu

The career defining 5th album from South African Slam juggernauts VULVODYNIA. Featuring a slew of guest performances and production from Christian Donaldson. Looking in a medical textbook will tell you the following: Vulvodynia is a chronic, severe vaginal pain with no identifiable cause. While the severe part is dead on, what a medical textbook won't tell you is that Vulvodynia is also the pioneer in what is rapidly becoming South Africa's most eviscerating export: Slamming Brutal Death Metal. With lobotomizing, lurid riffs, skin-shredding blast beats and slams gruesome and filthy enough to induce septic shock, Vulvodynia are a lethal plague, spreading throughout the flesh of today's heavy music scene—infecting one set of ears at a time, and leaving no survivors. Vulvodynia have toured Europe, USA, Australia, New Zealand, and played numerous festivals worldwide.
