### Opis produktu

**PŁYTA POWINNA BYĆ DOSTĘPNA OKOŁO 15 MAJA !!!**

Straight forward Finnish black metal of the highest order. The ultimate riffmaster of Utgard and Werewolf Records era Azazel, Wakboth has also led this venture bearing his name since 1995. Pohjolan ydintalvi, roughly translated as Nuclear Winter of the North, is a full on war campaign with spiteful vocals, hard drivin' deep drilling riffs, face smashing beats and deep ambient interludes. Soundtrack of choice to salute those mushroom clouds in the Northern skyline. Particularly powerful pro-studio production. Classy artwork by Nucleart Design. No pussy ass fashion gimmicks, this is original and pure black metal from that prideful old school side of the culture.
