Opis produktu

Coloured (crystal) double vinyl in heavy gatefold jacket. Limited to 300 copies.

Twelve years after its original release, Nordvis proudly presents this remastered version of Waldgeflüster’s “Femundsmarka – Eine Reise in drei Kapiteln”. The album chronicles a trek undertaken by the band’s mastermind, Winterherz, and his brother, P, through the Femundsmarka National Park in Norway.

Building on a foundation of atmospheric black metal, Winterherz uses various samples of wilderness and sea to weave a sonic tapestry that blends seamlessly with meticulously crafted acoustic melodies. Instrumental interludes play a pivotal role, serving as introductions, transitions, and a grand finale – all enhancing the conceptual nature of the album. The vocal performances of both brothers intertwine harmoniously, complementing each other's strengths. Their diverse range, from powerful growls to ethereal chants, adds depth and intensity to the music, creating a captivating blend.

Prepare yourself for an unforgettable musical odyssey; let Waldgeflüster transport you to untamed realms, where the beauty of nature meets the raw power of black metal. Open your heart, close your eyes, and embark on an extraordinary escapade.
