Ruinen (Ruins) is a heavy masterwork of emotive and moving metal, a gem that blends a vast variety of different genres within the metal spectrum. With Ruinen WALDGEFLÜSTER venture further away from their origin and the traces of more traditional black metal fades away and leave place for a more promising sound with no boundaries. It's certain that Ruinen is a wonderful melancholic journey that has allowed WALDGEFLÜSTER to reach another level. A level where the sounds of atmospheric folk metal of artists like Falls of Rauros and Panopticon merges with the older doom/post-metal sounds of artists such as Anathema & Katatonia. One of the most interesting metal releases of 2016, no doubt.
