Opis produktu

Housed in a 4 panel digipak with metallic inks

"True to its name, **Wolves In The Throne Room** has always painted between the lines of barbaric and regal. For over a decade it has been this between-space that has driven **WITTR's** power; burning black-metal riffs communing with mystical folk and ambient music." - NPR

WOLVES IN THE THRONE ROOM celebrate two decades as one of the most evocative and unique bands in North American Black Metal with the anniversary release of their original ***2005 Demo***! Originally recorded in Olympia, Washington as a prelude to the band's landmark "Diadem of 12 Stars" full length, the ***2005 Demo*** features the original versions of "Queen of the Borrowed Light", the exclusive track "Dagger of Amethyst Crystal", and "(A Shimmering Radiance) Diadem of Twelve Stars".

Available on vinyl for the first time in over 10 years, **WOLVES IN THE THRONE ROOM**'s ***2005 Demo*** is an essential piece of USBM history!
