Opis produktu

Relapse is proud to present the deluxe reissue of **YOB's The Great Cessation**. Originally released in 2009, the trio's 5th full-length record is a master lesson in cosmic Doom. Epic, crushing, and heavy beyond words, **YOB** achieved legendary status in recent years due to their unmatched aesthetic and incredible body of work. *The Great Cessation* is a flawless document of a band reformed and reinspired like never before. Ebbing and flowing between thunderous, skull-splitting riffage and rhythm to meditative moments of introspective psychedelia, *The Great Cessation* is an essential piece in the pantheon of **YOB's** illustrious output. This definitive edition has been completely remastered by Heba Kadry (The Mars Volta, Diamanda Galas, Slowdive) and includes stunning new artwork plus two bonus tracks (previously only available on vinyl).
